

JMP17 Windows Installation Guide

1. Click [This link](#) to go to the download page and login with your Iowa State Email: [JMP 17 Windows Installer](#)
2. Click on JMP > Windows > JMP 17. Select the JMP17.1_Pro_wPER_2023-2024.exe file and click download at the top.

3. Run the newly downloaded JMP17.1_Pro_wPER_2023-2024.exe
 - a. Your browser may attempt to block JMP from running once the installation is finished. Depending on the browser you will need to select the keep and run anyways option.
4. A popup will occur from Windows like in the image below. Click More Info then click run.

5. Run through the installer. When prompted, make sure the “Excel Add-In” is selected and not “SAS software integration”. When it is finished installing select “Create desktop shortcut”.
6. Run JMP 17, it will ask you to register: click Wait to Register If it asks for an administrator name just click continue.
7. Congrats! JMP 17 is now successfully installed on your computer. Once you have downloaded the appropriate .jmp files for your homework, click file > open at the top of the JMP taskbar.

Please contact stat-tech@iastate.edu if you have any problems or questions with installing Jmp. Be sure to include screen shots of your issue as this will help us determine a solution faster.
