

# JMP16 Mac Installation Guide

1. Click this link to go to the download page: [JMP 16 Mac Installer](#)
2. Click the download button at the top

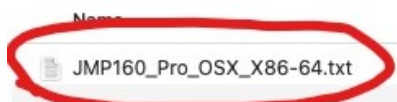

3. Open the JMP 16 folder in your downloads and open JMP PRO 16.0 (ISU).dmg
4. Run JMP Pro 16.pkg

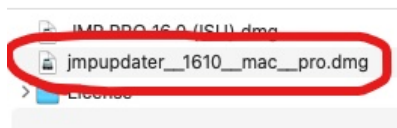

5. Run through the installer, then at the end click close. Allow it to access your downloads and move the installer to the trash
6. Now Open JMP 16. It should be now in your Applications. You'll be asked to register, click wait to register

- You may be asked for a license key, it's named  
JMP\_PRO\_16\_OSX\_X86\_64\_LICENSE\_2021-2022.txt  
and can be found under the license folder

7. Open the Updater subfolder and open the jmpupdater\_1610\_mac\_pro.dmg then run the JMP Pro 16.pkg

8. Congrats! JMP 16 is now successfully installed on your computer

Please contact [stat-tech@iastate.edu](mailto:stat-tech@iastate.edu) if you have any problems or questions with installing jmp. Be sure to include screenshots of your issue as this will help us determine a solution faster.
