

Ranjan Maitra

Mailing: Department of Statistics
Iowa State University
Ames, IA 50011.

Phones: (515) 294-7757 (office)
(515) 294-4040 (fax)
E-mail: maitra@iastate.edu

Education:

Ph.D.	1996	University of Washington, Seattle; Statistics
M. Stat.	1992	Indian Statistical Institute, Calcutta; Statistics
B. Stat. (Hons.)	1990	Indian Statistical Institute, Calcutta; Statistics

Research Interests:

Analysis of Massive Datasets, Cluster Analysis, Data Mining, Data Science, Efficient Simulation Algorithms, Finite Mixture Models, functional Magnetic Resonance Imaging, Image Analysis, Non-destructive Evaluation Imaging Methods, Statistical Computing, Statistical Learning, Tomography.

Professional Experience:

2011 – present	Professor, Department of Statistics, Iowa State University
2021 – 2023	Associate Chair for Research, Department of Statistics, Iowa State University
2003 – 2011	Associate Professor, Department of Statistics, Iowa State University
2003	Associate Professor, Department of Mathematics and Statistics, University of Maryland, Baltimore County
1997 – 2003	Assistant Professor, Department of Mathematics and Statistics, University of Maryland, Baltimore County
1996 – 1998	Research Scientist, Statistics and Data Mining Research, Bell Communications Research (Bellcore)

Honors Received:

1. 2023: “Founders’ Talk”, University of Minnesota, Minneapolis, 2023 Statistical Methods in Imaging conference.
2. 2022: LAS Award for Excellence in Graduate Mentoring, College of Liberal Arts and Sciences, Iowa State University.
3. 2020: “Highlight of Stat” selection for co-authored 2018 *Stat* paper “Merging k -means with hierarchical clustering for identifying general-shaped groups”, Joint Statistical Meetings.
4. 2018: Appointed Standing Committee Member (2018-22), *Neural Basis of Psychopathology, Addictions and Sleep Disorders* Study Section, National Institutes of Health.
5. 2011: Elected Member, International Statistical Institute (ISI).
6. 2011: Elected Fellow, American Statistical Association (ASA).
7. 2010: Young Researcher Award, Methodology and Application, International Indian Statistical Association (IISA).
8. 2003: CAREER Award, National Science Foundation (NSF).
9. 1998: Best Contributed Paper “Clustering Massive Datasets” in Statistical Computing, American Statistical Association, Joint Statistical Meetings, Dallas, Texas, judged best of 80 submitted.
10. 1997: Nominated for Francois Erbsman award (*only statistician*) for young scientists under 35 years of age, Information Processing in Medical Imaging (IPMI) Meetings, Poultney, Vermont.
11. 1996: Student Paper Competition award for “Estimating Precision in Functional Images”, American Statistical Association, Joint Statistical Meetings, Chicago, Illinois, one of 4 selected out of 22 submitted.
12. 1996: Best Poster titled “Estimating the Variability in Reconstructed PET Images” in the Student Poster Session, Spring Pacific Northwest Statistical Meetings, Seattle, Washington.
13. 1995: Best Presented Paper for “Estimating Variability in PET Reconstructions” in the Student Paper Competition, Western North American Region (WNAR) of the International Biometric Society, Joint WNAR/IMS Meetings, Stanford, California.
14. 1987-92: Excellent performance in degree program, Indian Statistical Institute, Calcutta, India.

Research Support and Fellowships:

External Support (Active and Past):

2022-24 \$417,516 (total costs). Improving functional fMRI Analysis via Integrated One-step Tensor-variate Methodology, NIH.
Principal Investigator.

- 2022-24 \$742,590 (total costs). Physics and Mathematical Models for Error Quantifications in Comparative 3D Microscopy for Physical Match Analysis, NIJ. *Co-Principal Investigator. (Principal Investigator: Bastawros, A.)*
- 2019-23 \$681,683 (total costs). Physical and Statistical Models for Quantitative Examination of Physical Match Analysis Utilizing 3D Microscopy of Fracture Surfaces, NIJ. *Co-Principal Investigator. (Principal Investigator: Bastawros, A.)*
- 2019-22 \$652,194 (total costs). Improved diagnosis of severe wind occurrence through machine learning, NOAA. *Co-Principal Investigator. (Principal Investigator: Gallus, W.)*
- 2016-18 \$495,341 (total costs). Quantitative Tools for Examination of Microscopic Fracture Surface Topology and Degradation for Physical Match Analysis of Evidence, NIJ. *Co-Principal Investigator. (Principal Investigator: Bastawros, A.)*
- 2013-17 \$380,466 (total costs). Statistical Methods for Improved Activation Detection in fMRI Studies, Research Grant, NIH. *Principal Investigator.*
- 2005-10 \$2,312,455 (total costs). Research and Training of Graduate (RTG) Students, NSF. *Senior Personnel. (Principal Investigator: Carriquiry, A.)*
- 2003-10 \$400,017 (total costs). CAREER Award, NSF. *Principal Investigator.*
- 2004-09 \$302,764 (total costs, ISU portion). Neuroimaging the Treatment and Recovery of Language, NIH. *Principal Investigator, Sub-contract from Johns Hopkins University (Overall Principal Investigator: Rapp, B.).*
- 2002-05 \$152,835 (total costs). Inter-Personnel Agreement, United States Environmental Protection Agency (EPA). *Principal Investigator.*
- 2003-04 \$8,050 (direct costs, UMBC portion). Effect of Age on Cortical Responses to Nociception, NIH. *Principal Investigator, Sub-contract from University of Maryland School of Medicine (Overall Principal Investigator: Gullapalli, R. P.).*
- 2001-02 \$39,965.04 (total costs). Inter-Personnel Agreement, United States Environmental Protection Agency (EPA). *Principal Investigator.*
- 2000-01 \$37,230.10 (total costs). Research Grant, Telcordia Technologies. *Principal Investigator.*
- 1999 \$13,867 (total costs). Research Grant, Telcordia Technologies. *Principal Investigator.*
- 1998 \$12,000 (direct costs, UMBC portion). Research Grant, NSF. *Principal Investigator, Sub-contract from Carnegie Mellon University.*

Intra-mural Support (Active and Past)

- 2016-19 \$450,000 Presidential Big Data Brain Initiative. ISU.
- 2012 \$1,203 Foreign Travel Grant. ISU.
- 2008-09 \$24,451 Center for Integrated Animal Genomics. ISU. *(Joint with Dorman, K. S.)*
- 2001 \$600 Arts and Sciences Travel Fund. UMBC.
- 1999 \$3,000 Summer Faculty Fellowship. UMBC.
- 1998 \$5,000 Summer Faculty Fellowship. UMBC.
- 1998 \$803 Arts and Sciences Travel Fund. UMBC.

Other Research Collaborations and Professional Consulting Experience:

- 2019-19 “Profiles in Hypnotizability”. Source: Richard and Rhoda Goldman Endowed Distinguished Professor Funds, through University of California Berkeley. *Principal Investigator: Kihlstrom, J. F..*
- 2004-06 “Cerebral Processing and Human Somesthetic Perception”. Source: NIH, through University of Maryland School of Medicine. *Principal Investigator: Greenspan, J. D..*
- 2005-06 “Improved Sensitivity and Specificity for Detection of Prostrate Cancer”. Source: DOD, through University of Maryland School of Medicine. *Principal Investigator: Gullapalli, R. P..*
- 2004-05 “Effect of Age on Cortical Responses to Nociception”. Source: National Institute of Aging, through University of Maryland School of Medicine. *Principal Investigator: Gullapalli, R. P..*

Publications (and Other Creative Efforts):

(Note: Henceforth, student co-authors are denoted by “*”).

16. fastICA. C package for basic Independent Component Analysis. Available at <http://www.mloss.org>.
17. MixSim. R package to Simulate from Finite Mixture Models. Joint with Melnykov, V.* & W.-C. Chen*. Available at <http://www.R-project.org>.
18. EMCluster. R package for inference on Finite Mixture Models. Joint with Chen, W.-C.* & V. Melnykov*. Available at <http://www.R-project.org>.
19. MixedRice. C package for EM estimation of Rice mixtures. Available at <http://www.mloss.org>.

Conference/Poster Presentations:

Invited/Juried:

1. Exploratory factor analysis for data on a sphere. *International Indian Statistical Association conference*. Colorado School of Mines, Golden, Colorado, June, 2023. (Invited session on "Recent Advances in Factor Analysis").
2. Fourier-structured tensor-variate distributions for high-resolution imaging applications. *Statistical Methods in Imaging Conference*. University of Minnesota, Minneapolis, Minnesota, May, 2023. (Founders' Talk).
3. Reduced-rank tensor-on-tensor regression and tensor-variate analysis of variance. *Conference on Advances in Data Science Theory, Methods and Computation*. College Station, Texas, October, 2022.
4. Reduced-rank tensor-on-tensor regression and tensor-variate analysis of variance. *24th International Conference on Computational Statistics (COMPSTAT2022)*. Bologna, Italy, August, 2022.
5. Model-based segmentation for improved activation detection in single-subject functional magnetic resonance imaging studies. *Statistical Methods in Imaging Conference*. Vanderbilt University, Nashville, Tennessee, May, 2022. (Invited session on "Modern Statistical Analysis on Neuroimaging").
6. Kernel nonparametric overlap-based syncytial clustering. *Joint Statistical Meetings*. Philadelphia, Pennsylvania, August, 2020. (Topic-contributed session on "Highlights of Stat").
7. Kernel nonparametric overlap-based syncytial clustering. *23rd International Conference on Computational Statistics (COMPSTAT2018)*. Iasi, Romania, August, 2018. (Invited Session on "Model-based clustering and classification").
8. Fracture mechanics-based quantitative matching of evidence fragments: Statistical framework. *2018 Impression, Pattern and Trace Evidence Symposium*. Arlington, Virginia, January, 2018.
9. Fracture-mechanics-based quantitative matching of evidence fragments. *International Symposium on Forensic Science Error Management*. Gaithersburg, Maryland, July, 2017.
10. Diagnostics in finite mixture models and model-based clustering. *22nd International Conference on Computational Statistics (COMPSTAT2016)*. Oviedo, Spain, August, 2016.
11. A novel model-based segmentation approach for improved activation detection in fMRI studies. *2016 Annual Meetings of the International Society of Magnetic Resonance in Medicine and Exhibition*. Singapore, May, 2016. (Juried poster presentation).
12. Diagnostics in finite mixture models and model-based clustering. *Twenty-second Workshop on Model-based Clustering*. Seattle, Washington, July, 2015. (Invited Long Talk).
13. Improved activation detection in fMRI. *2015 Joint Statistical Meetings*. Seattle, Washington, August, 2015. (Topic-contributed session on "Recent Advances in Neuroimaging Data Analysis").
14. A practical model-based segmentation approach to improved activation detection in fMRI studies. *International Indian Statistical Association Joint Meetings*. Pune, India, December, 2015.
15. Efficient bandwidth estimation in clinical positron emission tomography reconstruction. *IEEE Medical Imaging Conference (MIC)*. Seattle, Washington, November, 2014. (Juried poster presentation).
16. Practical segmentation-based activation detection in functional MR imaging. *21st International Conference on Computational Statistics (COMPSTAT2014), 5th IASC World Conference*. Geneva, Switzerland, August, 2014.
17. Clustering mutual funds for a balanced investment portfolio. *3rd IIMA International Conference on Advanced Data Analysis, Business Analytics and Intelligence (ICADABAI-2013)*. Ahmedabad, India, April, 2013.
18. Bootstrapping for significance in clustering. *Conference on Contemporary Issues and Applications of Statistics (CIAS-2012)*. Kolkata, India, January, 2012.
19. Bootstrapping for significance in clustering. *XXXI Annual Convention of the Indian Society for Probability and Statistics and International Conference on Statistics, Probability and Related Areas*. Cochin, India, December, 2011.
20. Assessing significance in finite mixture models and model-based clustering. *Eighteenth Workshop on Model-based Clustering*. Grenoble, France, July, 2010. (Invited Long Talk).
21. Bootstrapping for significance in multi-dimensional compact clustering models. *Conference on Resampling Methods and High-dimensional Data*. College Station, Texas, March, 2010. (Invited session on "Resampling Methods").
22. Bootstrapping for significance in multi-dimensional compact clustering models. *International Indian Statistical Association Joint Meetings*. Vishakhapatnam, India, January, 2010. (Invited session on "Resampling Methods").
23. Generating Gaussian mixtures with specified overlap. *Fourteenth Workshop on Model-based Clustering*. Seattle, Washington, July, 2008. (Invited short talk).
24. Clustering in the presence of scatter. *ICSPRAR-2008: International Conference on Statistical Paradigms: Recent Advances and Reconciliations*. Kolkata, India, January, 2008. (Invited Session on "High-dimensional Data Analysis").
25. A GCV approach to bandwidth selection in positron emission tomography image reconstruction. *Joint Statistical Meetings*. Salt Lake City, Utah, August, 2007. (Invited Session on "Advances in Contemporary Nonparametric Methods").
26. Model-based clustering of constrained spherical data: Finding patterns in gene expression time-course sequences. *Thirteenth Workshop on Model-based Clustering*. Dublin, Ireland, July, 2007. (Invited short talk).
27. Clustering massive datasets from arbitrary Gaussian mixtures. *Indian International Statistical Association Joint Meetings*. Cochin,

- India, January, 2007. (Special Invited Presentation on Data Mining).
28. Classification methods for directional data. *International Statistics Conference*, 2005. Kuala Lumpur, Malaysia, December, 2005.
 29. A statistical perspective on data mining. *Workshop on Data Mining and Bioinformatics. Organized by the International Indian Statistical Association and the Department of Statistics, University of Kalyani*. Kalyani, India, May, 2004.
 30. Reliability assessment in fMRI studies: A test-retest estimation approach. *International Conference on Emerging Strategies for improving Productivity, Quality and Reliability*. Kolkata, India, December, 2003.
 31. Indexing data quality indicators: A multiple-criteria decision-making approach. *TIES 2002. The International Environmetrics Society Meetings*. Genova, Italy, June, 2002.
 32. Group analysis of fMRI data using penalized maximum likelihood method. *10th Annual Meetings of the International Society of Magnetic Resonance in Medicine*. Honolulu, Hawaii, May, 2002. (Juried poster presentation).
 33. Intra-subject and inter-subject variability of SVS vs CSI spectra from spatially matched voxels. *10th Annual Meetings of the International Society of Magnetic Resonance in Medicine*. Honolulu, Hawaii, May, 2002. (Juried poster presentation).
 34. Resampling methods to test reliability of motion-corrected fMRI data. *2001 Joint Annual Meetings of the International Society of Magnetic Resonance in Medicine and the European Society for Magnetic Resonance in Biology*. Glasgow, Scotland, April, 2001. (Juried poster presentation).
 35. A comprehensive approach to estimating test-retest reliability in fMRI. *2001 Joint Annual Meetings of the International Society of Magnetic Resonance in Medicine and the European Society for Magnetic Resonance in Biology*. Glasgow, Scotland, April, 2001. (Juried poster presentation).
 36. Comment on "a Bayesian time-course model for functional magnetic resonance imaging data" by Chris Genovese. *2000 Joint Statistical Meetings*. Indianapolis, Indiana, August, 2000. (Invited discussant).
 37. Optimal fill-time prediction of coin boxes. *1999 Fall Meetings, INFORMS*. Philadelphia, Pennsylvania, November, 1999. (Invited session on "Models in Telecom Services Management").
 38. Making PET movies. *1999 Joint Statistical Meetings*. Baltimore, Maryland, August, 1999. (Invited session on "Recent Advances in Medical Imaging").
 39. Bayesian reconstruction in synthetic magnetic resonance imaging. *1999 Chesapeake Bay Chapter Meeting, American Statistical Association*. Aberdeen, Maryland, April, 1999. (Invited keynote presentation).
 40. Variability assessment in PET reconstructions. *1999 Workshop on Shape and Image Analysis*. Calcutta, India, January, 1999.
 41. Bayesian reconstruction in synthetic magnetic resonance imaging. *1998 Meetings of the Society of Photo-Optical Instrumentation Engineers*. San Diego, California, July, 1998. (Invited session on "Bayesian Inference in Inverse Problems").
 42. Variance estimation in functional images. *1998 Workshop on Image Analysis*. Montreal, Canada, April, 1998.
 43. Synthetic resampling methods for variance estimation in parametric images. *15th International Conference on Information Processing in Medical Imaging*. Poultney, Vermont, June, 1997. (Juried presentation).
 44. Synthetic resampling methods for variability estimation in functional images. *29th Symposium on the Interface: Computing Science and Statistics*. Houston, Texas, April, 1997. (Invited Session on Imaging).
 45. Estimating variability in functional images using a synthetic resampling approach. *1996 IEEE Nuclear Science Symposium and Medical Imaging Conference*. Anaheim, California, October, 1996. (Juried poster presentation).
 46. Estimating precision in functional images. *1996 Joint Statistical Meetings*. Chicago, Illinois, August, 1996. (Juried special contributed paper presentation).
 47. Estimating the variability of reconstructed PET data: A technique based on approximating the reconstruction filter by a sum of Gaussian kernels. *1995 IEEE Nuclear Science Symposium and Medical Imaging Conference*. San Francisco, California, October, 1995. (Juried poster presentation).

Contributed/Non-juried:

1. Fast spatial inference in the homogeneous ising model. *Joint Statistical Meetings*. Denver, Colorado, July, 2019.
2. FAST adaptive smoothed thresholding for activation detection in low-signal fMRI. *Joint Statistical Meetings*. Baltimore, Maryland, August, 2017.
3. Improving k -means color quantization of images via operations in different color spaces. *Joint Statistical Meetings*. Chicago, Illinois, August, 2016.
4. Practical model-based segmentation for activation detection in functional MRI imaging. *Joint Statistical Meetings*. Boston, Massachusetts, August, 2014. (Topic-contributed session on "Mixture Models and Its Applications").
5. Invited discussant, session on functional data and registration. *Joint Statistical Meetings*. San Diego, CA, August, 2013. (Topic-contributed session).
6. Finite mixture models in magnetic resonance imaging. *Joint Statistical Meetings*. Miami, Florida, August, 2011. (Topic-contributed session on "Mixture Models and Its Applications").
7. Assessing significance in finite mixture models. *Joint Statistical Meetings*. Vancouver, British Columbia, August, 2010. (Topic-

- contributed session on "Mixture Models and Clustering").
8. Assessing significance in finite mixture models and model-based clustering. *4th Annual Probability and Statistics Day and Silver Jubilee of UMBC Graduate Program in Statistics Conference*. Baltimore, Maryland, April, 2010.
 9. Bootstrapping for significance in multi-dimensional compact clustering models. *Joint Statistical Meetings*. Washington, D.C, August, 2009.
 10. Estimating significant clusters in model-based clustering. *2008 Joint Statistical Meetings*. Denver, Colorado, August, 2008.
 11. GCV estimation of bandwidth in positron emission tomography reconstruction. *International Conference on Multivariate Statistical Methods in the 21st Century: The Legacy of Professor S.N.Roy. Platinum Jubilee Celebrations of the Indian Statistical Institute*. Kolkata, India, December, 2006. (Invited Presentation on Brain Imaging).
 12. Initializing optimization partitioning algorithms. *2006 Joint Statistical Meetings*. Seattle, Washington, August, 2006.
 13. Grouping mutual funds on the basis of performance. *2005 Joint Statistical Meetings*. Minneapolis, Minnesota, August, 2005.
 14. Clustering massive datasets from arbitrary Gaussian mixtures. *55th Session of the International Statistical Institute*. Sydney, Australia, April, 2005.
 15. Indexing environmental quality indicators: A multiple criteria decision-making approach. *Statistics in Public Resources and Utilities, and in Care of the Environment (SPRUCE) VI*. Lund, Sweden, June, 2003. (Session on Air Quality and Indicators).
 16. Clustering massive datasets from arbitrary Gaussian mixtures. *2002 Joint Statistical Meetings*. New York, New York, August, 2002.
 17. Data mining tutorial. *EPA 2001 Statistics Workshop*. Philadelphia, Pennsylvania, May, 2001.
 18. Robust aggregated multiple partitioning: RAMPing up the k -means algorithm. *2001 Joint Statistical Meetings*. Atlanta, Georgia, August, 2001.
 19. Clustering massive datasets. *1998 Joint Statistical Meetings*. Dallas, Texas, August, 1998.
 20. Synthetic resampling methods for variance estimation in parametric images. *1997 Mid-Atlantic Probability and Statistics Day*. Baltimore, Maryland, October, 1997.
 21. Estimating the variability of reconstructed PET data. *1996 Spring Meetings, Pacific North West Statistics Meetings*. Seattle, Washington, April, 1996. (Poster presentation).
 22. Estimating variability in PET reconstructions. *1995 Joint WNAR/IMS Meetings*. Palo Alto, California, June, 1995.

Other Invited Professional Presentations:

1. Reduced-rank tensor-on-tensor regression and tensor-variate analysis of variance. *Statistics Seminar*, Pennsylvania State University, University Park, Pennsylvania, November, 2022.
2. Exploratory factor analysis of data on a sphere. *Statistics Colloquium*, Naval Postgraduate School, Monterey, California, May, 2022.
3. Exploratory factor analysis of data on a sphere. *Statistics Colloquium*, University of Texas Rio Grande Valley, Brownsville, Texas, December, 2021.
4. Exploratory factor analysis of data on a sphere. *Statistics Colloquium*, Iowa State University, Ames, Iowa, August, 2020.
5. Kernel nonparametric overlap-based syncytial clustering. *Statistics Colloquium*, University of Iowa, Iowa City, Iowa, October, 2019.
6. Kernel nonparametric overlap-based syncytial clustering. *Statistics Colloquium*, Iowa State University, Ames, Iowa, October, 2019.
7. Kernel nonparametric overlap-based syncytial clustering. *Statistics Seminar*, McGill University, Montreal, Quebec, April, 2018.
8. FAST adaptive smoothed thresholding for improved activation detection in low-signal fMRI. *Department of Statistics Colloquium*, Iowa State University, Ames, Iowa, February, 2017.
9. Improved activation detection in single-subject fMRI studies. *Big Data Seminar Series*, Iowa State University, Ames, Iowa, November, 2016.
10. Efficient k -means semi-supervised clustering for massive datasets. *Department of Statistics Colloquium*, National University of Singapore, Singapore, May, 2016.
11. Assessing significance in clustering with effortless application to massive datasets. *Department of Statistics Colloquium*, Oregon State University, Corvallis, Oregon, March, 2015.
12. Accounting for scatter in clustering. *College Colloquium*, Culverhouse College of Business, University of Alabama, Tuscaloosa, Alabama, December, 2013.
13. A GCV approach to bandwidth selection in positron emission tomography reconstruction. *Statistics Colloquium, Département de mathématiques et de statistique*, Université de Montréal, Montreal, Canada, November, 2013.
14. Assessing significance in clustering. *Biostatistics Department Colloquium*, Columbia University, New York, New York, October, 2013.
15. A GCV approach to bandwidth selection in positron emission tomography reconstruction. *PET Working Group Seminar*, Columbia University, New York, New York, October, 2013.
16. Assessing significance in finite mixture models. *Bayesian and Inter-disciplinary Research Unit colloquium*, Indian Statistical Institute, Kolkata, India, April, 2013.
17. Assessing significance in clustering. *College Colloquium*, College of Science and Mathematics, North Dakota State University, Fargo, North Dakota, November, 2010.

18. Assessing significance in clustering. *Statistics Colloquium*, Department of Statistics, North Carolina State University, Raleigh, North Carolina, November, 2010.
19. Assessing significance in clustering. *Statistics Colloquium*, Department of Statistics, Iowa State University, Ames, Iowa, October, 2010.
20. Assessing significance in model-based clustering with application to studies of population genetic structure. *Statistics Seminar Series, Statistical Center for HIV/AIDS Research & Prevention (SCHARP)*, Vaccines & Infectious Diseases Institute (VIDI), Fred Hutchinson Cancer Research Center, Seattle, Washington, March, 2010.
21. Assessing significance in finite mixture models. *Statistics Colloquium*, Fox School of Business, Temple University, Philadelphia, Pennsylvania, October, 2008.
22. Assessing significance in finite mixture models. *Statistics Colloquium of McGill University, University of Montreal, Concordia University, University of Quebec at Montreal*, Concordia University, Montreal, Canada, October, 2008.
23. Clustering in the presence of scatter. *Department of Statistics Colloquium*, Texas A&M University, College Station, Texas, November, 2007.
24. GCV estimation of bandwidth in positron emission tomography reconstruction. *Department of Statistics and Statistical Laboratory Colloquium*, Iowa State University, Ames, Iowa, October, 2006.
25. Reliability assessment in fMRI studies: A test-retest estimation approach. *Applied Statistics Seminar Colloquium*, Indian Statistical Institute, Kolkata, India, May, 2005.
26. Statistical issues in functional imaging: From the operating room to hollywood. *VIGRE Seminar Series in Statistical Computing*, Department of Statistics and Statistical Laboratory, Iowa State University, October, 2004.
27. Reliability assessment in fMRI studies: A test-retest estimation approach. *VIGRE Seminar Series in Statistical Computing*, Department of Statistics and Statistical Laboratory, Iowa State University, September, 2003.
28. Clustering massive datasets from arbitrary mixtures of Gaussian populations. *Department of Statistics and Statistical Laboratory Colloquium*, Iowa State University, April, 2003.
29. Reliability assessment in fMRI studies: A test-retest estimation approach. *Department Colloquium*, Vanderbilt University Division of Epidemiology and Biostatistics, Nashville, Tennessee, March, 2003.
30. Indexing data quality indicators: A multiple-criteria decision-making approach. *Seminar*, Office of Information Analysis and Access, United States Environmental Protection Agency, Washington, DC, September, 2002.
31. Bayesian reconstruction in synthetic magnetic resonance imaging. *Statistics Seminar*, Biomathematics and Statistics Scotland (BIOSS), University of Edinburgh, Edinburgh, Scotland, April, 2001.
32. Bayesian reconstruction in synthetic magnetic resonance imaging. *Statistics Seminar*, University of Nottingham, Nottingham, United Kingdom, April, 2001.
33. Optimal Bayesian decisions on collecting coin-boxes. *Applied Statistics Seminar*, Indian Statistical Institute, Calcutta, India, March, 2001.
34. Statistical data mining — what? Why and where? *Part I of Special Invited Panel Series*, Department of Statistics, Case Western Reserve University, Cleveland, Ohio, February, 2001.
35. Statistical data mining — how? *Part II of Special Invited Panel Series*, Department of Statistics, Case Western Reserve University, Cleveland, Ohio, February, 2001.
36. Statistical data mining — the future. *Part III of Special Invited Panel Series*, Department of Statistics, Case Western Reserve University, February, 2001.
37. Data mining – a statistical perspective. *Special Statistics Colloquium*, Office of Environmental Information, United States Environmental Protection Agency, Washington D. C., February, 2001.
38. Optimal Bayesian decisions on collecting coin-boxes. *Joint Mathematics and Statistics Colloquium*, Department of Mathematics and Statistics, University of Maryland, Baltimore County, Baltimore, Maryland, October, 2000.
39. Clustering massive datasets. *Statistics Colloquium*, Division of Theoretical Statistics and Mathematics, Indian Statistical Institute, Calcutta, India, March, 2000.
40. Clustering massive datasets. *Statistics Colloquium*, Department of Mathematics and Statistics, University of Maryland, Baltimore County, Baltimore, Maryland, February, 2000.
41. Clustering massive datasets. *Statistics seminar*, Applied Research Division, AT& T Research, Florham Park, New Jersey, March, 1999.
42. Clustering massive datasets. *Statistics colloquium*, Applied Research Area, Telcordia Technologies, Morristown, New Jersey, March, 1999.
43. Variance estimation in functional images. *Biostatistics Colloquium*, Department of Biostatistics, University of Michigan, Ann Arbor, Michigan, February, 1999.
44. Variance estimation in functional images. *Statistics Colloquium*, Department of Statistics, Carnegie Mellon University, Pittsburgh, Pennsylvania, November, 1998.
45. Variance estimation in functional images. *Statistics Colloquium*, Department of Mathematics and Statistics, University of Mary-

- land, Baltimore County, Baltimore, Maryland, March, 1998.
46. Synthetic resampling methods for variance estimation in parametric images. *Statistics Colloquium*, Department of Mathematics, University of Maryland, College Park, College Park, October, 1997.
 47. Synthetic resampling methods for variance estimation in parametric images. *Seminar*, Department of Electrical Engineering and Computer Science, University of Maryland, Baltimore County, Baltimore, Maryland, September, 1997.
 48. Synthetic resampling methods for variance estimation in parametric images. *Statistics seminar*, Statistics and Mathematics Division, Indian Statistical Institute, Calcutta, India, July, 1997.
 49. An affirmative action scheme for clustering massive datasets, with application to software patch classification. *Statistics colloquium*, Microsoft Research, Redmond, Washington, May, 1997.
 50. Variability estimation in PET reconstructions. *Statistics seminar*, Department of Mathematics and Statistics, University of Massachusetts, Amherst, Massachusetts, March, 1997.
 51. Variability estimation in PET reconstructions. *Statistics Colloquium*, Department of Statistics, Case Western Reserve University, Cleveland, Ohio, February, 1997.
 52. Variability estimation in PET reconstructions. *Statistics Colloquium*, Department of Mathematics and Statistics, University of Maryland, Baltimore County, Baltimore, Maryland, February, 1997.
 53. Variability estimation in PET reconstructions. *Statistics Colloquium*, Department of Statistics, Michigan State University, East Lansing, Michigan, February, 1997.
 54. Variability estimation in PET reconstructions. *Statistics seminar*, Applied Research Area, Bell Communications Research, Morristown, New Jersey, April, 1996.
 55. Variability estimation in PET reconstructions. *Statistics Colloquium*, Division of Statistics, University of California, Davis, Davis, California, February, 1996.
 56. Bayesian reconstruction in synthetic magnetic resonance imaging. *Applied Statistics Seminar*, Indian Statistical Institute, Calcutta, India, September, 1994.
 57. On best equivariant estimation and admissibility of mean direction vector in Langevin populations. *Graduate Seminar*, Department of Statistics, University of Washington, Seattle, Washington, November, 1992.
 58. On best equivariant estimation and admissibility of mean direction vector in Langevin populations. *Applied Statistics Seminar*, Indian Statistical Institute, Calcutta, India, September, 1992.

Mentored Student Awards and Honors:

1. 2023: Subrata Pal, ASA Section on Statistical Computing and Graphics Student Paper Competition award for “Fast matrix-free methods for model-based personalized synthetic MR imaging.”
2. 2023: Sattwik Ghosal, Student Poster Award at the 2023 International Indian Statistical Association conference award for “The envelope of a complex Gaussian random variable.”
3. 2022: Carlos Llosa-Vite, First place, ASA Section on Statistics in Imaging Student Paper Competition award for “Reduced-Rank Tensor-on-Tensor Regression and Tensor-variate Analysis of Variance.”
4. 2022: Carlos Llosa-Vite, Runners’-up, Statistical Methods in Imaging Student Paper Competition award for “Tensor-variate Elliptically Contoured distributions with Application to Image Learning.”
5. 2022: Subrata Pal, International Indian Statistical Association Student Paper competition award for “Model-based Personalized Synthetic Magnetic Resonance Imaging.”
6. 2022: Subrata Pal, Outstanding Student Presentation Award: Honorable Mention at the 21st Conference on Artificial Intelligence for Environmental Science, held as part of the 102nd American Meteorological Society Annual meeting award for ““Blowin’ in the wind” - Diagnosing the Probability that a Severe Thunderstorm Wind Report is Truly Due to Severe Intensity Wind Event.”
7. 2021: Carlos Llosa-Vite, People’s Choice Award, 3MT: Three Minute Thesis Competition, Iowa State University award for “Assessing Suicide Risk Using Statistics.”
8. 2021: Yifan Zhu, ASA Section on Statistical Computing and Graphics Student Paper Competition award for “Three-dimensional radial visualization of high-dimensional mixed-featured datasets.”
9. 2021: Geoffrey Z. Thompson, Joint first place, ASA Section on Statistics in Imaging Student Paper Competition award for “CatSIM: A categorical image similarity metric.”
10. 2020: Fan Dai, ASA Section on Statistical Computing and Graphics Student Paper Competition award for “A matrix-free likelihood method for exploratory factor analysis of high-dimensional gaussian data.”
11. 2019: Fan Dai, Student Poster award at Second Midwest Machine Learning Symposium award for “FAD: factor analysis of data.”
12. 2018: Israel A. Amodóvar-Rivera, Second place, ASA Section on Medical Devices and Diagnostics Student Paper Competition award for “FAST Adaptive Smoothing and Thresholding for Improved Activation Detection in Low-Signal fMRI.”
13. 2014: Geoffrey Z. Thompson, ASA Section on Statistical Computing and Graphics Student Paper Competition award for “An Adaptive Method for Lossy Compression of Big Images.”

14. 2012: Karl T. Pazdernik, ASA Section on Statistical Computing and Graphics Student Paper Competition award for “Efficient Maximum Likelihood Estimation for Fixed Rank Kriging.”
15. 2011: Wei Chen-Chen, ASA Section on Statistical Learning and Data Mining award for “A New AECM Algorithm Tuned to a Faster Beat for Model-Based Clustering of Regression Time Series Data.”

Ph. D. Students:

Major Professor (Dissertation Advisor) of Dissertation Advisees:

1. Carlos Llosa-Vite (2022, awarded by ISU, currently Senior Statistician, Sandia National Laboratories).
2. Geoffrey Z. Thompson (2021, awarded by ISU, currently Visiting Assistant Professor, Indiana University).
3. Yifan Zhu (2021, awarded by ISU, currently Staff Scientist, inDeed).
4. Fan Dai (2020, awarded by ISU, currently Assistant Professor, Michigan Technological University; *Joint with Somak Dutta*).
5. Nicholas Berry (2019, awarded by ISU, currently Statistical Scientist, Berry Consultants).
6. Andrew Lithio (2017, awarded by ISU, currently Research Scientist, Lily; *Joint with Dan Nettleton*).
7. Israel A. Almodóvar-Rivera (2017, awarded by ISU, currently Assistant Professor, University of Puerto Rico).
8. Karl T. Pazdernik (2013, awarded by ISU, currently Senior Data Scientist, Pacific Northwest National Laboratories).
9. Daniel W. Adrian (2011, awarded by ISU, currently Associate Professor, Grand Valley State University).
10. Anna Peterson (2011, awarded by ISU, currently Teaching Professor, ISU; *Joint with Arka Ghosh*).
11. Volodymyr Melnykov (2009, awarded by ISU, currently Professor and Associate Department Head, University of Alabama).
12. Ivan P. Ramler (2008, awarded by ISU, currently Associate Professor, St. Lawrence University).
13. Rafaela M. Guidi (2003, awarded by UMBC, currently Senior Adviser (Retired), Bank of Brazil).
14. Subrata Pal (2024, expected to be awarded by ISU, ISU; *Joint with Somak Dutta*).
15. Joshua Berlinski (2024, expected to be awarded by ISU, ISU).

Other Committee Memberships:

(i) Elizabeth Macias (2023, awarded by ISU, Major: Physics and Astronomy). (ii) Sebastian Sanchez-Falero (2022, awarded by ISU, Major: Physics and Astronomy). (iii) Princess Tiffany-Dantes (2020, awarded by ISU, Major: Agriculture and Biosystems Engineering). (iv) Jose Sepulveda-Quiroz (2018, awarded by ISU, Major: Physics and Astronomy). (v) Jia Liu (2013, awarded by ISU, Major: Statistics). (vi) Xiao Ma (2013, awarded by ISU, Major: Industrial and Manufacturing Systems Engineering). (vii) Minsun Kim (2013, awarded by ISU, Major: Statistics). (viii) Tian Ye (2013, awarded by ISU, Major: Statistics). (ix) Wei-Chen Chen (2011, awarded by ISU, Major: Statistics). (x) Wei Lu (2011, awarded by ISU, Major: Electrical and Computer Engineering). (xi) Adam T. Pintar (2010, awarded by ISU, Major: Statistics). (xii) Ming Li (2010, awarded by ISU, Major: Statistics). (xiii) Timothy Bancroft (2009, awarded by ISU, Major: Statistics). (xiv) Haming Ma (2009, awarded by ISU, Major: Statistics). (xv) Chunwang Gao (2009, awarded by ISU, Major: Statistics). (xvi) Wuyan Zhang (2006, awarded by ISU, Major: Statistics). (xvii) Rhonda DeCook (2006, awarded by ISU, Major: Statistics). (xviii) Yurong Wang (2006, awarded by ISU, Major: Statistics). (xix) Eric Moulton (2004, awarded by *University of Maryland, Baltimore*, Major: neuroscience). (xx) Xiaoming Li (2000, awarded by UMBC, Major: Statistics). (xxi) Xianong Gu (2000, awarded by UMBC, Major: Statistics). (xxii) Yi-Tzu Li (1999, awarded by UMBC). (xxiii) Vladimir Mats (1997, awarded by UMBC, Major: Statistics). (xxiv) Samuel Benidt (2018, expected to be awarded by ISU, Major: Statistics). (xxv) Zhiling Gu (2024, expected to be awarded by ISU, Major: Statistics).

External Dissertation Examiner:

1. Siow-Hoo Leong, *University of Malaya*. Title: Mixture model clustering for very large datasets.

M. S. Students:

Major Professor (Creative Component Advisor) of Dissertation Advisees:

1. Joshua Berlinski (2021, awarded by ISU, last-known affiliation: ISU).
2. Martin Silerio-Vázquez (2019, awarded by ISU, last-known affiliation: ISU).
3. Carlos Llosa-Vite (2018, awarded by ISU, last-known affiliation: ISU).
4. Yifan Zhu (2018, awarded by ISU, last-known affiliation: ISU).
5. Nicholas Berry (2016, awarded by ISU, currently Statistical Scientist, last-known affiliation: Berry Consultants).
6. Juan P. Rodriguez-Ramirez (2016, awarded by ISU, last-known affiliation: California State University, Bakersfield).
7. Israel A. Almodóvar-Rivera (2014, awarded by ISU, last-known affiliation: University of Puerto Rico, Mayaguez).
8. Christopher Bruno (2011, awarded by ISU, last-known affiliation: Hokua Software).

9. Anna Peterson (2008, awarded by ISU, last-known affiliation: ISU; *Joint with Arka Ghosh*).
10. Adam T. Pinter (2007, awarded by ISU, last-known affiliation: National Institute of Standards Technology).
11. William Baumann (2006, awarded by ISU, last-known affiliation: Minnesota State Community and Technical College).
12. Erin K. McMurtry (2005, awarded by ISU, last-known affiliation: Mayo Clinic).
13. Nichole M. Gray (2005, awarded by ISU, last-known affiliation: Mercer).
14. Peter N. Hoekstra (2004, awarded by ISU, last-known affiliation: Expedia).

Other Committee Memberships:

- (i) Bernd Fuhrman (2020, awarded by ISU, Major: Statistics). (ii) Fan Dai (2019, awarded by ISU, Major: Statistics). (iii) Yifan Wang (2017, awarded by ISU, Major: Statistics). (iv) Brandon Klinedinst (2017, awarded by ISU, Major: Interdisciplinary Graduate Studies). (v) Jian Gong (2005, awarded by ISU, Major: Electrical Engineering).

Undergraduate Research Advising:

1. Aisha Washington, ISU, 2018-19, Undergraduate Honors project.
2. Benjamin Mulaosmanovic, 2009, First Year Honors Mentoring Program.
3. Michelle Wallace, ISU, 2009, First Year Honors Mentoring Program.
4. Stephanie Wilkerson, Xaviers' University, New Orleans, Louisiana, 2008, NSF Alliance (AGEP).
5. Ashley Bennett, Simpson College, Indianola, Iowa, 2004, NSF VIGRE Undergraduate Summer Research Experience.

Research Assistants Funded:

- (i) Subrata Pal (2019–). (ii) Carlos Llosa-Vite (2019–22). (iii) Geoffrey Z. Thompson (2020). (iv) Geoffrey Z. Thompson (2017–19). (v) Emily M. Goren (2018). (vi) Nathan M. Garton (2016–17). (vii) Israel A. Almodóvar-Rivera (2014–16). (viii) Wei-Chen Chen (2008–10). (ix) John J. Riddles (2008–10). (x) Volodymyr Melnykov (2007–09). (xi) David Faden (2007–08). (xii) Karl T. Pazdernik (2007). (xiii) Ivan P. Ramler (2005–07). (xiv) William Baumann (2005–06). (xv) Teresa McConville (2004–05).

Classes taught:

Iowa State University:

(Note that “*” denotes course conception and/or (re-)development while “†” denotes classes taught with additional online distance sections.)

1. Stat 105 – Introduction to Statistics for Engineers (S’14, F’14, S’15)
2. HONS 290 – Freshman Honors Program (S’06, S’09)
3. Stat 305 – Engineering Statistics (S’20, F’20, F’20)
4. Stat 330* – Probability and Statistics for Computer Scientists and Engineers (F’09, F’10, S’12, F’13)
5. Stat 341 – Introduction to the Theory of Probability (F’17, S’19)
6. Stat 342 – Introduction to the Theory of Probability and Statistics – II (S’12)
7. Stat 407 – Multivariate Statistical Methods (F’18, F’19)
8. Stat 490H – Undergraduate Honors Research (S’19)
9. Stat 490 – Undergraduate Capstone Research (S’19)
10. Stat 501* – Multivariate Statistical Methods (S’04, S’11†, S’12, S’13, S’16, S’17, S’18)
11. Stat 515 – Theory and Applications of the Non-linear Model (F’03)
12. Stat 579* – An Introduction to R (F’06, F’07, F’08, F’11†, F’15†, F’16†, F’17†, F’21, F’22)
13. Stat 580* – Statistical Computing (S’05, S’06, S’07, S’08, S’10, S’13, S’14, S’20)
14. Stat 647* – Advanced Multivariate Analysis (F’22)
15. Stat 680/690E* – Advanced Statistical Computing (F’05, F’07, F’08, F’09, F’11, F’14, F’16, F’18, F’21)

University of Maryland Baltimore County:

(Note that “*” denotes course conception and/or (re-)development.)

1. Stat 121 – An Introduction to Statistics for the Social Sciences (Su’01)
2. Stat 350 – Statistics with Applications in the Biological Sciences (F’98, S’98, F’99, S’99, S’00, F’00, F’01, F’02)
3. Stat 355 – Probability and Statistics for Scientists and Engineers (F’96, F’97, S’98)
4. Stat 432 – A Tutorial Introduction to SAS (F’00, winter’01)
5. Stat 433* – Introduction to Statistical Computing (S’02)

6. Stat 454* – Applied Statistics (F'01)
7. Stat 490/CMSE 491C* – An Introduction to Data Mining (S'02)
8. Stat 601* – Applied Statistics (F'97, F'98)
9. Stat 625/700* – Spatial Statistics and Image Analysis (F'99, F'00)

Professional Activities:

2023	Organizer, “Methodology for Structured Data” in The 16th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2023), HTW Berlin, University of Applied Sciences, Berlin, Germany.
2022	Organizer, “Recent Statistical Advances in Imaging” in The 15th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2022), King’s College, London, United Kingdom.
2022	Organizer, “Collaborative Case Study Session on <i>Engineering and Statistical Models for Error Quantifications in Comparative 3D Microscopy for Physical Match Analysis</i> ” in Statistical Methods in Imaging Conference, Vanderbilt University, Nashville, Tennessee.
2020	Workshop on Recent Advances in Statistical Analysis of Imaging Data, Organizing Committee.
2018-22	Panelist for reviewing proposals submitted to Neural Basis of Psychopathology, Addictions and Sleep Disorders Study Section of the National Institutes of Health: <i>Standing committee member</i> .
2018-20	Editor, (Area: <i>Statistical Methodology</i>), <i>Statistical Analysis and Data Mining: The ASA Data Science Journal</i> .
2017-18	Panelist for reviewing proposals submitted to Neural Basis of Psychopathology, Addictions and Sleep Disorders Study Section of the National Institutes of Health: <i>Temporary member</i> .
2017	Organizer, Topic-contributed Session on “Clustering Methods for Big Data Problems” in 2017 Joint Statistical Meetings.
2017	Chair, Topic-Contributed Session on “Optimal Transport and Scalable Bayes: A Fruitful Synergy?” in 2017 Joint Statistical Meetings.
2017	Panelist for reviewing proposals submitted to Neural Basis of Psychopathology, Addictions and Sleep Disorders Section of the National Institutes of Health.
2017-present	Member, ASA Committee on Publications.
2016	Organizer, Topic-contributed Session on “Novel Statistical Methodologies for Neuroimaging Data” in 2016 Joint Statistical Meetings.
2016-present	Mentor to Evercita Eugenio, JSM Mentoring Program, American Statistical Association.
2015	Organizer and Chair, Topic-contributed Session on “Statistical Methods for Improved Processing and Analysis of fMRI Data” in 2015 Joint Statistical Meetings.
2015-present	Mentor to J. L. Ding and Sandeep Saha, JSM Mentoring Program, American Statistical Association.
2014	Panelist for reviewing proposals submitted to Division of Mathematical Sciences - Statistics Program Panel of the National Science Foundation.
2014-present	Mentor to Aymeric Stamm and Qiong Zhang, JSM Mentoring Program, American Statistical Association.
2012-14	Publications Officer, ASA Section on Statistics in Imaging.
2012-14	Member, Executive Committee, ASA Section on Statistics in Imaging.
2012	International Indian Statistical Association (IISA) Representative, 2012 Joint Statistical Meetings (JSM) Program Committee.
2012	Panelist for reviewing proposals submitted to Division of Mathematical Sciences - Statistics Program Panel of the National Science Foundation.
2011-12	Organizer, Invited Session on “Recent Advances and Unresolved Challenges in Statistical Genetics” in 2012 Joint Statistical Meetings.
2010-11	Organizer, Invited Session on “Recent Advances in Finite Mixture Models and Clustering” in 2011 Joint Statistical Meetings.
2010	Organizer and Chair, Topic-Contributed Session on “Finite Mixture Models and Model-Based Clustering” in 2010 Joint Statistical Meetings.
2010	Chair, Session on “Methods for High-Dimensional Datasets” in Conference on Resampling Methods and High-dimensional Data, College Station, Texas.
2010	Reviewer for Senate Grants for Research and Scholars of the West Virginia University, Morgantown West Virginia.
2010-present	Editor, <i>Statistics Surveys</i> .
2010-present	Founding Member, ASA Section on Statistics in Imaging.
2009	Organizer, Invited Session on “High-dimensional Methods” in Conference to Celebrate the 75th Anniversary of the Statistical Laboratory, Department of Statistics, Iowa State University, Ames, IA.

2008-11	Reviewer for Discovery Grants of the Natural Sciences and Engineering Research Council of Canada.
2008-10	Associate Editor, <i>Statistics Surveys</i> .
2008	Panelist for reviewing proposals submitted to Scientific Computing Research Environments for the Mathematical Sciences (SCREMS) of the National Science Foundation.
2008-present	Associate Editor, <i>Sankhyā: The Indian Journal of Statistics, Series A: Theoretical Statistics, Probability Theory and Stochastic Processes</i> .
2004	Panelist for reviewing proposals submitted to Mathematical and Computer Science Panel of the National Science Foundation.
2003	Organizer and Chair, “Session on MCMC computations for large-dimensional problems” in Joint Statistical Meetings, San Francisco, California.
2002-05	Editor, Section on Statistical Computing, American Statistical Association, <i>Statistical Computing and Graphics Newsletter</i> .
2002	Chair, “Invited Session on International Environmental Statistics” in TIES 2002, The International Environmental Society Meetings, Genova, Italy.
2001	Chair, Session on Applications of Nonparametrics in 2001 Joint Statistical Meetings, Atlanta, GA.
1999	Invited Participant, National Research Council (NRC) Workshop on “Statistical Methods for Reducing Uncertainty in Ocean Science Models,” National Academy of Sciences.
1997-05	Member, Executive Committee, Section on Statistical Computing, American Statistical Association.
1997-02	Continuing Education Co-Liason, Section on Statistical Computing, American Statistical Association.
1996	Reviewer for papers submitted to: 1996 <i>IEEE Nuclear Science Symposium and Medical Imaging Conference</i> , <i>Annals of Applied Statistics</i> , <i>Applied Soft Computing</i> , <i>Biological Psychiatry</i> , <i>Biometrics</i> , <i>Computational Statistics</i> , <i>Computational Statistics and Data Analysis</i> , <i>Entropy</i> , <i>Environmental and Ecological Journal</i> , <i>Human Brain Mapping</i> , <i>IEEE Transactions on Medical Imaging</i> , <i>IEEE/ACM Transactions on Computational Biology and Bioinformatics</i> , <i>Information Sciences</i> , <i>Journal of Agricultural Biological and Environmental Statistics</i> , <i>Journal of Classification</i> , <i>Journal of Computational and Graphical Statistics</i> , <i>Journal of Environmental Statistics</i> , <i>Journal of Machine Learning Research</i> , <i>Journal of NeuroEngineering and Rehabilitation</i> , <i>Journal of Statistical Computation and Simulation</i> , <i>Journal of Statistical Education</i> , <i>Journal of Statistical Planning and Inference</i> , <i>Journal of Statistical Software</i> , <i>Journal of the American Statistical Association – Applications and Case Studies</i> , <i>Journal of the American Statistical Association – Theory and Methods</i> , <i>Journal of the Royal Statistical Society – Series C</i> , <i>Mathematical Programming</i> , <i>Naval Research Logistics</i> , <i>Naval Research Statistics</i> , <i>Neurocomputing</i> , <i>PLOS One</i> , <i>Pattern Analysis and Applications</i> , <i>R Journal</i> , <i>Statistica Sinica</i> , <i>Statistical Analysis and Data Mining</i> , <i>Statistics and Computing</i> , <i>Statistics and Its Interface</i> , <i>Statistics and Probability Letters</i> , and <i>Technometrics</i> .

Departmental Service:

2022-23	Chair, Honors and Awards Committee, Iowa State University.
2021-26	Member, Advisory Committee on Promotion and Tenure, Iowa State University.
2021-22	Member, PhD Curriculum Review Committee, Iowa State University.
2021-22	Member, External Advisory Board Formation Committee, Iowa State University.
2021-22	Chair, Foundation Account Review Committee, Iowa State University.
2021-22	Member, Department Webpage Development and Maintenance Committee, Iowa State University.
2021-22	Member, Honors and Awards Committee, Iowa State University.
2020-present	Primary Affiliate Liason, National Institute of Statistical Sciences, Iowa State University.
2019-present	Mentor to Somak Dutta, Department of Statistics, Iowa State University.
2018-20	Member, Sustainability Committee, Iowa State University.
2017-18	Chair, Fall Colloquia, Iowa State University.
2017-present	Member, Computation Advisory Committee, Iowa State University.
2016-17	Member, Advisory Committee to the Chair, Iowa State University.
2015-17	Chair, Computation Advisory Committee, Iowa State University.
2014-16	Chair, Library Liason, Iowa State University.
2014-16	Coordinator, Fall Working Group on Semi- and Unsupervised Learning in Massive Datasets, Iowa State University.
2014-15	Member, Memorial Lecture Series, Iowa State University.
2014-15	Member, Faculty Search Committee, Iowa State University.
2013-14	Member, Computation Advisory Committee, Iowa State University.
2013-present	Mentor to Kris de Brabanter, Department of Statistics, Iowa State University.
2012-14	Member, Honors and Awards Committee, Iowa State University.
2012-13	Co-chair, Big Data Faculty Search Committee, Iowa State University.
2011-12	Chair, Fall Colloquia, Iowa State University.

2010-13	Member, Graduate Admissions Committee, Iowa State University.
2009-13	Coordinator, Fall Working Group in Statistical Computing and Computationally-Intensive Methods, Iowa State University.
2009-10	Chair, Fall Colloquia, Iowa State University.
2008-09	Chair, Fall Colloquia, Iowa State University.
2008-09	Chair, Computation Advisory Committee, Iowa State University.
2008-09	Member, Graduate Admissions Committee, Iowa State University.
2008-09	Member, Memorial Lecture Series, Iowa State University.
2007-08	Co-chair, Computation Advisory Committee, Iowa State University.
2007-08	Chair, Journals Rankings Committee, Iowa State University.
2006-07	Member, Faculty Search Committee, Iowa State University.
2005-09	Coordinator, NSF RTG/VIGRE Working Group on Statistical Computing, Iowa State University.
2004-06	Member, Strategic Planning Committee, Iowa State University.
2004	Chair, Computation Advisory Committee, Iowa State University.
2003-11	Member, Computation Advisory Committee, Iowa State University.
2003-04	Chair, Spring Colloquia, Iowa State University.
2001-03	Member, Department Undergraduate Committee, University of Maryland, Baltimore County.
1999-01	Member, Department Computer Committee, University of Maryland, Baltimore County.
1998	Acting chair, Department Computer Committee, University of Maryland, Baltimore County.
1994-95	Organizer, 1994-1995 Statistics Department Student Seminar Series, University of Washington.

University and Community Service:

2022-present	Member, CAPER: College of Agriculture and Life Sciences (CALS) Advisory Panel for Engaged Research, Iowa State University.
2017-20	LAS Senate Caucus Representative, Research Policy and Planning Committee, Iowa State University.
2016-19	College of Liberal Arts and Sciences, LAS Honors and Awards Committee, Iowa State University.
2010-12	LAS Senate Caucus Representative, Faculty Appeals Committee, Iowa State University.
2009-12	Departmental Representative, Faculty Senate, Iowa State University.
1999-00	Member, Faculty Classroom Instructional Technology Committee, University of Maryland, Baltimore County.
1997-03	Volunteer, UMBC Graduate School Open House.
